## OUR SERVICES

### CURTAIN WALL FACADE SYSTEM

A curtain wall system is an outer covering of a building in which the outer wall are non-structural, but merely keeps the weather out and the occupants in. As the curtain wall is non-structural, it can be made with a light weight material.

### ACP

Aluminium composite panel cladding (ACP) is a widely- used term, describing flat panels that consist of thermoplastic core bonded between two aluminium sheet. ACPs are frequently used for external cladding of building (building facades).

### SPIDER GLASS FACADE SYSTEM

The high grade stainless steel fixing are designed to absorb all static and dynamic loads ( i.e .. the dead weight of the glass, wind loading, snow loads and differential expansion due to temperature difference) and distribute them to support.

### TOUGHENED GLASS FACADE SYSTEM

Toughened glass or tempered glass is a type of safety glass processed by controlled thermal or chemical treatments to increase its strengths.

### WINDOWS & DOORS

TEQNIQ envisages and provides diverse lively guide clients through the intricacies of the process. Our team of educated and experienced professionals has a passion for the profession and is committed to serve you with durable and innovative solutions.

### SKY LIGHT

Skylight is a light-transmitting structure that forms all or part of the roof space of a building for daylighting purpon. As professionals, we understand the necessary steps it takes to provide you with high quality sky light roofing and we do this with free written, clear and fair agreements while maintaining a clean and safe job site overall.

### METAL CLADDING

Clad metals offer the opportunity to combine desirable properties and/or characteristics of individual metals and alloys into a material" system" that provides improved characteristics over the individual metals

### INTERIOR WORK

Interior designing is the art of enhancing the aesthetics and functionality of indoor spaces. Designers blend colors, furniture, and lighting to create harmonious environments tailored to clients' preferences. From optimizing layouts to selecting decor elements, interior designers transform spaces into stylish and personalized settings, enhancing both visual appeal and comfort.
